

SAFETY DATA SHEET

	1. Product and Company Ide	entification	
Product identifier	Duracoil (4083-90)		
Other means of identification	Not available.		
Recommended use	Coil and surface protectant		
Recommended restrictions	None known.		
Manufacturer information	Nu-Calgon		
	2611 Schuetz Road		
	St. Louis, MO 63043 US		
	Phone: 314-469-7000 / 800-554-5499 Emergency Phone: 1-800-424-9300 (CHEMT		
Supplier	Not available.		
	2. Hazards Identification		
Physical hazards	Flammable aerosols	Category 1	
	Gases under pressure	Liquefied gas	
Health hazards	Skin corrosion/irritation	Category 2	
	Serious eye damage/eye irritation	Category 2	
	Germ cell mutagenicity	Category 1B	
	Carcinogenicity	Category 1A	
	Reproductive toxicity	Category 2	
	Specific target organ toxicity, single exposure	Category 3 narcotic effects	
	Specific target organ toxicity, repeated	Category 1	
	exposure	0, 7	
	Aspiration hazard	Category 1	
Environmental hazards	Not classified.		
WHMIS 2015 defined hazards	Not classified		
Signal word	Danger		
-	0	adar processor may evolute if bested. May be fatal if	
Hazard statement	swallowed and enters airways. Causes skin in drowsiness or dizziness. May cause genetic d	nder pressure; may explode if heated. May be fatal if ritation. Causes serious eye irritation. May cause efects. May cause cancer. Suspected of damaging organs through prolonged or repeated exposure.	
Precautionary statement			
Prevention		pen flames and other ignition sources. No smoking.	
		n source. Do not pierce or burn, even after use. ve gloves/protective clothing/eye protection/face	
	Do not breathe gas. Use only outdoors or in a Obtain special instructions before use. Do not	a well-ventilated area. t handle until all safety precautions have been read	
	and understood. Do not eat, drink or smoke when using this pr	oduct.	
Response	IF SWALLOWED: Immediately call a POISON		
neoponoc	IF ON SKIN: Wash with plenty of water. Spec	ific treatment (see information on this label). If skin Take off contaminated clothing and wash it before	
	IF IN EYES: Rinse cautiously with water for se and easy to do. Continue rinsing. If eye irritation	keep comfortable for breathing. Call a POISON	
	IF exposed or concerned: Get medical advice Protect from sunlight. Do not expose to tempe		

Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
WHMIS 2015: Health Hazard(s) not otherwise classified (HHNOC)	None known
WHMIS 2015: Physical Hazard(s) not otherwise classified (PHNOC)	None known
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.
	3. Composition/Information on Ingredients

Mixture

hemical name	Common name and synonyms	CAS number	%
Acetone		67-64-1	10-30
Distillates, petroleum, light distillate hydrotreating process, low-boiling		68410-97-9	10-30
Naphtha (petroleum), hydrotreated light		64742-49-0	10-30
Propane		74-98-6	10-30
Butane		106-97-8	5-10
Ferric oxide		1309-37-1	5-10
Solvent naptha (petroleum), light aliphatic		64742-89-8	5-10
Stoddard solvent		8052-41-3	1-5
Xylene		1330-20-7	1-5
Benzene, ethyl-		100-41-4	0.1-1
Crystalline silica		14808-60-7	0.1-1
Toluene		108-88-3	0.1-1

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments US GHS: The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.

4.	First	Aid	Measu	res
----	-------	-----	-------	-----

Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
Skin contact	IF ON SKIN: Wash with plenty of soap and water. Specific treatment (see information on this label). If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting.
Most important symptoms/effects, acute and delayed	Aspiration may cause pulmonary edema and pneumonitis. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. Prolonged exposure may cause chronic effects.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed. Treat patient symptomatically.
General information	IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children.
	5. Fire Fighting Measures
Suitable extinguishing media	Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2).

Specific hazards arising from the chemical	Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.
Unsuitable extinguishing media	None known.
Suitable extinguishing media	Water tog. Alcohol resistant toam. Dry chemical powder. Carbon dioxide (CO2).

Special protective equipment and precautions for firefighters	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
Fire-fighting equipment/instructions	In case of fire: Stop leak if safe to do so. Do not move cargo or vehicle if cargo has been exposed to heat. Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Cool containers exposed to flames with water until well after the fire is out. In the event of fire and/or explosion do not breathe fumes.
General fire hazards	Extremely flammable aerosol. Contents under pressure. Pressurized container may explode when exposed to heat or flame.
Hazardous combustion products	May include and are not limited to: Oxides of carbon.
	6. Accidental Release Measures
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Wear appropriate protective equipment and clothing during clean-up. Do not breathe gas. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.

Environmental precautions Do not discharge into lakes, streams, ponds or public waters. 7. Handling and Storage

Obtain special instructions before use. Do not handle until all safety precautions have been read Precautions for safe handling and understood. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not smoke while using or until spraved surface is thoroughly dry. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Close valve after each use and when empty. Protect cylinders from physical damage; do not drag, roll, slide, or drop. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Do not re-use empty containers. Do not breathe gas. Avoid contact with eyes, skin, and clothing. When using, do not eat, drink or smoke. Pregnant or breastfeeding women must not handle this product. Use only in well-ventilated areas. Avoid prolonged exposure. Wear appropriate personal protective equipment. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. Level 1 Aerosol. Conditions for safe storage, including any incompatibilities Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not handle or store near an open flame, heat or other sources of ignition. Do not puncture, incinerate or crush. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS). Cylinders should be stored upright, with valve protection cap in place, and firmly secured to prevent falling or being knocked over. Stored containers should be periodically checked for general condition and leakage.

Clear

Exposure guidelines

Toluene (CAS 108-88-3) Canada - Saskatchewan OEL	Can be absorbed through the skin. .s: Skin designation	
Toluene (CAS 108-88-3)	Can be absorbed through the skin.	
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.	
Individual protection measures,	such as personal protective equipment	
Eye/face protection	Wear safety glasses with side shields.	
Skin protection		
Hand protection	Wear appropriate chemical resistant gloves. Confirm with a reputable supplier first.	
Other	Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended. As required by employer code.	
Respiratory protection	Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.	
Thermal hazards	Not applicable.	
General hygiene considerations	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. When using do not eat or drink.	
	9. Physical and Chemical Properties	

Appearance

Physical state	Gas.	
Form	Aerosol. Spray	
Color	Rust	
Odor	Characteristic	
Odor threshold	Not available.	
рН	Not available.	
Melting point/freezing point	Not available.	
Initial boiling point and boiling range	Not available.	
Pour point	Not available.	
Specific gravity	Not available.	
Partition coefficient (n-octanol/water)	Not available.	
Flash point	Not available.	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not available.	
Upper/lower flammability or exp	plosive limits	
Flammability limit - lower (%)	Not available.	
Flammability limit - upper (%)	Not available.	
Explosive limit - lower (%)	Not available.	
Explosive limit - upper (%)	Not available.

Other information		
Explosive properties	Not explosive.	
Flame extension	Aerosol Category 1	
Oxidizing properties	Not oxidizing.	
	10. Stability and Reactivity	
Reactivity	This product may react with strong oxidizing agents.	
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.	
Chemical stability	Material is stable under normal conditions.	

Chemical stabilityMaterial is stable under normal conditions.Conditions to avoidHeat. Do not mix with other chemicals.Incompatible materialsStrong acids. Strong oxidizing agents. Nitrates. Halogens. Fluorine. Chlorine.Hazardous decomposition
productsMay include and are not limited to: Oxides of carbon.

11. Toxicological Information

Routes of exposure

Eye, Skin contact, Inhalation, Ingestion.

Informat	ion on like	ely routes	of expos	ure	
			_		

Ingestion	Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia. May cause stomach distress, nausea or vomiting.
Inhalation	May cause damage to organs through prolonged or repeated exposure by inhalation. May cause drowsiness and dizziness. Headache. Nausea, vomiting.
Skin contact	Causes skin irritation.
Eye contact	Causes serious eye irritation.

Symptoms related to the physical, chemical and toxicological characteristics

Aspiration may cause pulmonary edema and pneumonitis. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain.

Information on toxicological effects

Acute toxicity	May be fatal if swallowed and enters airways. Narcot	c effects.

US NTP Report on Carcinog			0
	808-60-7) lated Substances (29 CFR 191	Known To Be Human 10.1001-1050)	Carcinogen.
Not listed. Reproductive toxicity	Suspected of damaging fertility	y or the unborn child.	

Teratogenicity	Toluene (benzene, methyl-) has caused fetotoxicity (reduced fetal weight), behavioural effects (effects on learning and memory) and hearing loss (in males). These effects have been observed in the offspring of rats exposed by inhalation to 1200 or 1800 ppm toluene. These effects were observed in the absence of maternal toxicity. Xylene is considered fetotoxic in humans, based on observations of reduced fetal weight, delayed ossification and persistent behavioural effects in animal studies in the absence of maternal toxicity.
Specific target organ toxicity - single exposure	May cause drowsiness and dizziness.
Specific target organ toxicity - repeated exposure	Causes damage to organs through prolonged or repeated exposure.
Aspiration hazard	May be fatal if swallowed and enters airways.
Chronic effects	Causes damage to organs through prolonged or repeated exposure. Prolonged inhalation may be harmful.

12. Ecological Information

Ecotoxicity	See below		
Ecotoxicological data			
Components		Species	Test Results
Acetone (CAS 67-64-1)		-	
Crustacea	EC50	Daphnia	13999 mg/L, 48 Hours
Aquatic			
Crustacea	EC50	Water flea (Daphnia magna)	10294 - 17704 mg/L, 48 hours
Fish	LC50	Rainbow trout,donaldson trout (Oncorhynchus mykiss)	4740 - 6330 mg/L, 96 hours

Crustacea	EC50	Daphnia	7.645 mg/L, 48 Hours
Aquatic			
Crustacea	EC50	Water flea (Daphnia magna)	5.46 - 9.83 mg/L, 48 hours
Fish	LC50	Coho salmon,silver salmon (Oncorhynchus kisutch)	8.11 mg/L, 96 hours
Xylene (CAS 1330-20-7)			
Aquatic			
Fish	LC50	Bluegill (Lepomis macrochirus)	7.711 - 9.591 mg/L, 96 hours
Persistence and degradability	No data is ava	ailable on the degradability of this product.	
Bioaccumulative potential			
Mobility in soil			
Mobility in general	No data available.		
	Not available.		
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.		
	1	3. Disposal Considerations	
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Dispose of contents/container in accordance with local/regional/national/international regulations.		
Local disposal regulations	Dispose in ac	cordance with all applicable regulations.	
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.		

Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.

14. Transport Information

Transport of Dangerous Goods
(TDG) Proof of ClassificationIn accordance with Part 2.2.1 (SOR/2014-152) of the Transportation of Dangerous Goods
Regulations, we certify that the classification of this product is correct as of the SDS date of issue.

U.S. Department of Transportation (DOT)

UN number	UN1950
Proper shipping name	Aerosols, flammable, (each not exceeding 1 L capacity
Hazard class	Limited Quantity - US
Special provisions	N82
Packaging exceptions	<1L - Limited Quantity
Packaging non bulk	None
Packaging bulk	None

Basic shipping requirements:		
UN number	UN1950	
Proper shipping name	AEROSOLS, flammable	
Hazard class	Limited Quantity - Canada	
Special provisions	80, 107	
Packaging exceptions	<1L - Limited Quantity

US. California Proposition 65

WARNING: This product contains a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.

US - California Proposition 65 - CRT: Listed date/Carcinogenic substance

Benzene (CAS 71-43-2)	Listed: February 27, 1987	
Benzene, ethyl- (CAS 100-41-4)	Listed: June 11, 2004	
Crystalline silica (CAS 14808-60-7)	Listed: October 1, 1988	
Naphthalene (CAS 91-20-3)	Listed: April 19, 2002	
US - California Proposition 65 - CRT: Listed date/Developmental toxin		
Benzene (CAS 71-43-2)	Listed: December 26, 1997	
Toluene (CAS 108-88-3)	Listed: January 1, 1991	
US - California Proposition 65 - CRT: Listed date/Male reproductive toxin		

Benzene (CAS 71-43-2) Listed: December 26, 1997

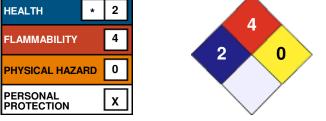

Inventory status

Country(s) or region	Inventory name	On inventory (yes/no)*
Canada	Domestic Substances List (DSL)	Yes
Canada	Non-Domestic Substances List (NDSL)	No
United States & Puerto Rico	Toxic Substances Control Act (TSCA) Inventory	Yes
*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)

16. Other Information

The information in the sheet was written based on the best knowledge and experience currently available. Information contained herein was obtained from sources considered technically accurate and reliable. While every effort has been made to ensure full disclosure of product hazards, in some cases data is not available and is so stated. Since conditions of actual product use are beyond control of the supplier, it is assumed that users of this material have been fully trained according to the requirements of all applicable legislation and regulatory instruments. No warranty, expressed or implied, is made and supplier will not be liable for any losses, injuries or consequential damages which may result from the use of or reliance on any information contained in this document.
